

Tony King

I'm the co-founder and leader of marketing and finance for NewLink. I received my BA from UC San Diego in Economics and MBA from UC Berkeley. I've had a 15 year career in consulting, finance, marketing and pricing. Through my career my best opportunities came when meeting new people just outside my network and that led me to found NewLink.

Karen Jin

I'm the co-founder and UX designer of NewLin. I was born in Shanghai China, received a BA from a University in the UK and have worked in international companies and traveled around China, UK and the Middle East. My diverse background and exposure to different cultures have shaped me into a problem solver and designer who understands a global audience.

Ying Tung Wong

I'm the co-founder and software engineer of NewLink. I was born in Malaysia, received BA from university of Singapore moved to USA to pursue MBA in business in San Francisco University. I have worked as Supply Chain Assistant in Wentel Corporation after moved on to Solazyme Inc as Operations Coordinator. After moving to San Jose area started pursuing BA in computer science and that led to NewLink.

George Ermakov

I'm the co-founder and programmer of NewLink. I was born in Russia but lived most of my life in Europe. In the last seven years moved to Michigan where I received associates in business and started pursuing BA in computer science at MSU. I have worked in Motorwerks Corporation as website developer and IT support after moved on to JSD Design as website developer. After moving to Cupertino area continued my degree.
